PERGAMON

Transportation Research Part D 8 (2003) III—V

TRANSPORTATION RESEARCH PART D

www.elsevier.com/locate/trd

LIST OF CONTENTS

Number 1

O. Hagman 1 Mobilizing meanings of mobility: car users' constructions of the goods and bads of car use

A.K. Mukherjee, S.K. Bhattacharya, S. Ahmed, S.K. Roy, A. Roychowdhury and **S. Sen** 11 Exposure of drivers and conductors to noise, heat, dust and volatile organic compounds in the state transport special buses of Kolkata city

S.C. Burgess and **J.M.J. Choi** 21 A parametric study of the energy demands of car transportation: a case study of two competing commuter routes in the UK

S. Ryan and **J.A. Throgmorton** 37 Sustainable transportation and land development on the periphery: a case study of Freiburg, Germany and Chula Vista, California

J.E. Dickinson, S. Kingham, S. Copsey and **D.J.P. Hougie** 53 Employer travel plans, cycling and gender: will travel plan measures improve the outlook for cycling to work in the UK?

T. Wenzel and **M. Ross** 69 Comment on "Statistical modelling of vehicle emissions from inspection/maintenance testing data: an explanatory analysis"

S. Washburn and **F. Mannering** 73 Statistical modeling of vehicle emissions from inspection/maintenance testing data: an exploratory analysis—Reply

Number 2

M. Polk 75 Are women potentially more accommodating than men to a sustainable transportation system in Sweden?

E.L. Foresman, M.J. Kleeman, T.P. Kear and D.A. Niemeier 97 PM10 conformity determinations: the equivalent emissions method

C. Pronello 113 The measurement of train noise: a case study in northern Italy

S. Cullinane and K. Cullinane 129 Car dependence in a public transport dominated city: evidence from Hong Kong

D.A. Hensher and C. Sullivan 139 Willingness to pay for road curviness and road type

Number 3

157 Publisher's note

T.J. Lyons, J.R. Kenworthy, C. Moy and F. dos Santos 159 An international urban air pollution model for the transportation sector

M. Brons, P. Nijkamp, E. Pels and P. Rietveld 169 Railroad noise: economic valuation and policy

A. Nagurney and F. Toyasaki 185 Supply chain supernetworks and environmental criteria

O. Bin 215 A logit analysis of vehicle emissions using inspection and maintenance testing data

F. McGregor, L. Ferreira and L. Morawska 229 Modelling of sub-micrometer particle concentrations in free-flowing freeway traffic, Brisbane, Australia: some empirical results

P.H.T. Zannin, F.B. Diniz, C. Giovanini and J.A.C. Ferreira 243 Interior noise profiles of buses in Curitiba

Number 4

A. Marmur and Y. Mamane 249 Comparison and evaluation of several mobile-source and line-source models in Israel

I. Cameron, J.R. Kenworthy and T.J. Lyons 267 Understanding and predicting private motorised urban mobility

S.M. Shiva Nagendra and M. Khare 285 Principal component analysis of urban traffic characteristics and meteorological data

B. van Wee, R. van den Brink and **H. Nijland** 299 Environmental impacts of high-speed rail links in cost—benefit analyses: a case study of the Dutch Zuider Zee line

R.M. Corvalán and **D. Vargas** 315 Experimental analysis of emission deterioration factors for light duty catalytic vehicles Case study: Santiago, Chile

Number 5

Y. Shiftan, S. Kaplan and **S. Hakkert** 323 Scenario building as a tool for planning a sustainable transportation system

A.E. Farrell, D.H. Redman, J.J. Corbett and **J.J. Winebrake** 343 Comparing air pollution from ferry and landside commuting

J. Lin and **D.A. Niemeier** 361 Regional driving characteristics, regional driving cycles

R. Rastogi and **K.V. Krishna Rao** 383 Defining transit accessibility with environmental inputs

Number 6

D. Earnhart 397 Do travel cost models value transportation properly?

M. Janic 415 Modelling operational, economic and environmental performance of an air transport network

M. Dessouky, M. Rahimi and **M. Weidner** 433 Jointly optimizing cost, service, and environmental performance in demand-responsive transit scheduling
